**14-15 October 2016
Raleigh, NC**

VICTORIAN STEAM

J.M.W. Turner, "Rain, Steam, and Speed—
The Great Western Railway" (1844)

Responding to recent emphasis on the STEM fields of science, technology, engineering, and mathematics, many arts and humanities advocacy organizations have urged including the arts in educational priorities with the hybrid acronym STEAM. The 2016 conference of the Victorians Institute is devoted to "Victorian STEAM," inviting papers which explore arts and humanities in disciplinary crossover in nineteenth-century literary, cultural, and historical contexts, as well as how studies of the nineteenth century may contribute to redefining our sense of education or disciplinarity today.

Please submit abstracts for papers or panels by April 29, 2016 to

victoriansinstitute2016@gmail.com
